* * * * *

Any publication or article listed in this bulletin may be borrowed free of charge from the Bureau of Information of the National Society for Crippled Children. Bibliographies listing similar articles, or loan package libraries containing additional literature on any of the subjects discussed in these articles, will be sent to any interested person upon request.

Articles appearing in the bimonthly magazine, THE CRIPPLED CHILD, or in the bimonthly news letter of the Society, THE CRIPPLED CHILD BULLETIN, are not listed in this bulletin.

A list of periodicals in which articles listed in this issue originally appeared, together with their addresses and prices, is given on Page 7.

Bulletin on Current Literature

Prepared by Lillian Dowdell, Librarian

Issued monthly to affiliated state and local societies for crippled children, state agencies engaged in the treatment, education or vocational rehabilitation of cripples, and public or private institutions and agencies having Institutional Membership in the National Society for Crippled Children. Available also to other individuals and agencies who pay 50¢ a year to cover actual costs of materials and postage.

105. Annual Report - 1943. St. Louis Society for Crippled Children, 520 North Grand Boulevard, St. Louis, Mo. 11 pp.

106. Annual Report - 1942-43. Wage and Hour and Public Contracts Divisions, U. S. Dept. of Labor, New York, N. Y. Jan. 15, 1944. 41 pp. Processed.

"Fair Labor Standards in Wartime, Second Year"
From the sections on handicapped workers, (pp. 18 and 19):

"Analysis of special handicapped worker certificates issued during the fiscal year indicates clearly that the stepping-up of piece rates in industry generally, with corresponding rise in earnings for all workers, has eliminated to a large extent the need for renewing subminimum wage certificates for handicapped workers who had been employed previously under them. At the same time subminimum-rate certificates have been issued for the more severely handicapped workers who a year ago were not only unemployed but were considered unemployable."

"Altogether 3,783 applications were received of which 3,313 certificates were issued."

"An essential factor of both [civilian and veteran rehabilitation] programs is vocational training on the job under special agreements which set forth the conditions under which the training is given. Many of these agreements call for subminimum wage certificates from the Wage and Hour Division."

"Through the continuing cooperation and assistance of the Sheltered Workshop Advisory Committee, appointed by the Administrator in the early days of the Act, sheltered workshops engaged in commerce report monthly earnings data, income and similar information required by the regulations. These reports indicate a marked rise in wage levels. The committee is engaged in developing minimum standards for sheltered workshops on a national scale."

107. Arey, Margaret S., R.N. The Care of Patients with Amputations. The American Journal of Nursing, Feb., 1944. 44:2:113-119.

This is the second section of this article. The first was published in the January, 1944, issue of the Journal.

108. Barton, Major Walter E. Healthy Attitudes Toward War Injuries. Public Health Nursing, Feb., 1944. 36:2:74-79.

Describes the reconditioning program which begins with convalescence and includes physical fitness training, educational activities, and recreation.

"Ten rather arbitrary rules useful as guideposts in the approach to the sensitive and emotionally upset disabled soldier" are recommended and explained in the section on the psychology of the handicapped.

109. Basic Minimum Program of Social Security, A. Social Security Bulletin, Jan., 1944. 7:1:3-12.

Excerpt from Eighth Annual Report of the Social Security Board for the fiscal year 1942-43, pp. 31-45. Includes section on "losses and costs of disability," in which "the Board recommends that insurance against permanent total disability be incorporated in the Federal system of old-age and survivors insurance and extended to all covered by that system under provisions, including benefits to dependents, which would follow the general pattern of this Federal program."

110. Beard, Gertrude, R.N. A Growing Field Beckons to Nurses. The Trained Nurse and Hospital Review, Feb., 1944. 112:2:104-105.

Recommends physical therapy as "a field of advanced education for nurses to consider in the post-war period."

111. Calderwood, Carmelita, R.N. The Patient Comes Out of His Cast. The American Journal of Nursing, Mar., 1944. 44:3:202-205.

On "safe and intelligent care of the postcast patient."

112. Campbell, Paul, Jr. Man of Vision. Courage, Jan., 1944. 4:25:2-5.

"Success" story of Alexander P. de Seversky, who wears an artificial leg.

113. Cohen, Evelyn Gross. A Medical Social Worker in a Public Assistance Agency. The Family, Mar., 1944. 25:1:13-19.

Includes case histories showing how the medical social worker of the St. Louis Social Security Commission was able to help physically handicapped relief clients become self-supporting.

114. Crafts for Convalescents. Gray Ladies Corps Chicago Chapter American Red Cross, 529 South Wabash Ave., Chicago 5, Ill. 1944. 43 pp. 10¢.

115. Daniels, Lucille. Hospital Problems in Treatment of Infantile Paralysis by Kenny Method. Hospital Management, Mar., 1944. 57:3:94, 96, 98.

116. Directory of Services for the Physically Handicapped in the State of Indiana, A. Indiana Society for Crippled Children, 621 Lemcke Bldg., Indianapolis 4, Ind. 1944. 36 pp.

"The first part of the book contains a subject index, and cross reference listing. Included in this index are such subject headings as 'Appliances,' 'Cerebral Palsy,' and 'Education.' The subject index is followed by an Alphabetical Listing of Agencies, describing the general functions and facilities of each. An Appendix has been included which lists the Hospitals and Mental Hygiene Clinics in Indiana; Educational Legislation, and Publications which contain data on the physically handicapped."

117. Education Committee -- Summary of Major Discussion and Action January 6, 1944, Nashville. [and] Education Committee -- Tentative Proposals on State Program for Exceptional Children Physically Handicapped. Tennessee Society for Crippled Children, Stahlman Building, Nashville 3, Tenn. 1944. 4 pp. and 9 pp., respectively. Mimeographed.

At the Committee meeting, reports were given on the present education facilities for the speech defective, hard of hearing, partially sighted, and crippled. "Discussion brought out the need for an over-all law to fix stop gaps between departments" and to coordinate, extend, and finance the work of all departments. A motion outlining the general features of a proposed law covering all aspects of services for physically handicapped children and creating an Administrative Commission to allocate funds under the act was prepared for the consideration of the Society's Legislative Committee.

The "Tentative Proposals" includes statistics on the estimated number of exceptional children of each type in the state; a table showing methods of, and responsibility for, discovery of each type of child and another showing the

responsibilities of state administrative agencies to each type; and estimated itemized cost of a complete education program for physically handicapped children in Tennessee.

118. Ficarra, Bernard J., M.D. Cripples? Youth Leaders Digest, Jan., 1944. 6:4:149-153.

A review of famous cripples of history.

119. Franklin, Zilpha C. An Expanded Program for Vocational Rehabilitation of Disabled Citizens. National Municipal Review, Jan., 1944. 33:1:27-29.

120. Gardner, Mona. Not a Medical Joke. Collier's, Feb. 5, 1944. 113:6:50, 52-53.

Points out that permanent defects frequently follow the common children's diseases, and suggests home nursing rules which will decrease this danger.

121. Gilmore, Mary E., R.N. An Amputated Leg at Twenty-one. The American Journal of Nursing, Feb., 1944. 44:2:120-121.

Case story of a young woman's amputation and prosthesis. "It is important for the nurse to understand and to convey to her patient that limbs are replaceable and physical capabilities are unlimited."

122. Gratke, Mrs. Juliette. Spastic Club of Iowa. Iowa Society for Crippled Children and the Disabled, 404 Plymouth Bldg., Des Moines 9. Feb. 11, 1944. 4 pp.

In this address to a mother's club sponsored by the Iowa Society, a mother of four children, one of whom is severely handicapped by cerebral palsy, discusses parents problems in the training and care of the cerebral palsied. [see also No. 153 in this Bulletin]

123. Gubin, E. K. Rehabilitation of Convalescent Patients. Hygeia, Mar., 1944. 22:3:184-186, 235.

Pictures a possible schedule of activities for patients in convalescent hospitals of the future, patterned after the program for convalescents in the Army Air Forces. This program of continuous activity, varying from therapeutic exercises to academic classes, is briefly described.

124. Gudakunst, Don W. Infantile Paralysis. The Journal of the National Education Association, Mar., 1944. 33:3:72.

125. Hall, Carrol C. Teen-Age Rejectees. The Rotarian, Mar., 1944. 64:3:23-24.

Advice on helping in the social-emotional adjustment of the boy who is rejected for military service because of an unapparent physical defect.

126. Hill, Merton E. A Program of Re-Education and of Rehabilitation. The American School Board Journal, Feb., 1944. 108:2:46-47, 66.

Urges college and school administrators to join with industry, commerce and agriculture in training the disabled and suggests the procedure for organizing this enlarged program. Relates the author's experience as principal of a high school and junior college in California which contracted with the federal government after World War I to train disabled veterans in agricultural occupations.

127. Hines, Frank T. Basic Provisions of the Vocational Rehabilitation Program of the Veterans Administration. Journal of Exceptional Children, Feb., 1944. 10:5:116, 124.

128. Hovey, Margaret Pope. For the Disabled--We Can Take Up Arms. Industrial Medicine, Mar., 1944. 13:3:258, 260, 262, 264, 268.

Mrs. Hovey shows how the American public can "take up arms" for the war disabled by making a place for them in productive industry. An over-all picture is presented of the problems which confront industry in attaining this end.

"None of the...injured....will feel that society has answered its responsibility to them if doles, or institutional care, or training courses which do not lead to permanent economic adjustments are the sole response to their needs and their sacrifices. The only just and permanent answer to this problem is for society to take all of these who have something to give, regardless of their handicaps, where able to produce, back into the ranks of wage earners."

129. Howland, Goldwin W. Occupational Therapy Across Canada. Canadian Geographical Journal, Jan., 1944. 28:1:32-40.

This well-illustrated article explains for the layman the basic principles of occupational therapy, and tells the history of its development and spread throughout Canada. Medical authorities are quoted on its usefulness and purposes in their specialties. The programs at individual hospitals and sanatoria are briefly described. The Canadian army is reported to be enlisting occupational therapists as Second Lieutenants, with promotion to First Lieutenant at the end of six months.

130. Hudson, Holland. Service for the Deviate. The Journal of Health and Physical Education, Mar., 1944. 15:3:121, 154, 156.

Tells purposes of new federal rehabilitation laws, and discusses vocational training of rehabilitation personnel.

131. Industrial Nurse and Orthopedics, The. Public Health Nursing, Feb., 1944. 36:2:88-89.

132. Industry takes jobs to servicemen in hospitals. Modern Industry, Jan. 15, 1944. 7:1:80, 82, 84, 87, 89, 91.

Well-illustrated article giving details of an arrangement by which wounded sailors in two Navy hospitals in New York are given assembling, riveting, and similar war-production jobs selected for their occupational therapy and vocational training values, and paid for by the war industry which provides the materials and uses the sailors' products in naval ordnance equipment.

133. Jobs for Psychologists in Vocational Rehabilitation. Occupations, Feb., 1944. 22:5:325-326.

134. Jones, Margaret. Methods of Teaching Crippled Children. The Instructor, Feb., 1944. 53:4:25.

The special education teacher at Miramar School, Miami, Florida, tells of some of her teaching problems and methods with her multi-grade class of fourteen crippled children.

135. K. P. Good for Broken Wrists. Science Digest, Mar., 1944. 15:3:52-53.

Brief sketch of Army Air Forces' program for convalescents.

136. McGonegal Showed Them. Time, Feb. 14, 1944. 43:7:21.

Tells of a handless World War I veteran who demonstrates his efficiency with his steel hooks to new handless veterans.

137. Marsh, Chester G. A New Service by Older Girls. Recreation, Mar., 1944. 37:12:677-678, 694.

Describes "a project by which older Girl Scouts, through their skills in arts and crafts, will serve as aides to occupational therapists."

138. Miller, Loretta Maude. Intelligence and Achievement Testing of Convalescent Crippled Children. Journal of Exceptional Children, Mar., 1944. 10:6:131-138.

Report of a study of the mental status of 431 crippled children, patients at the Country Home for Convalescent Crippled Children, West Chicago, Illinois. Statistical tables and figures illustrate the findings in this study and compare them with other studies of crippled children and of normal children. The author reports that her study supports the conclusion reached in all the studies she has consulted - that crippled children test lower in intelligence than normal children. Her mental test scores are also compared with the achievement scores for the same group.

139. Nelson, Nels A., M.D. Present Status of Gonorrhea Control. American Journal of Public Health, Feb., 1944. 34:2:159-164.

140. New Horizons in Therapy. Vocational Trends, Mar., 1944. 7:3:4-5.

General information on occupational therapy as a profession.

141. Norris, Dr. Donald C. Rehabilitation of Disabled Persons. Fabian Quarterly, Oct., 1943. No. 39, pp. 33-40.

142. O'Connor, Chaplain Leslie, Lt. (JG), CHC, USNR. Occupational Therapy Work at a Navy Mobile Hospital. Occupational Therapy and Rehabilitation, Feb., 1944. 23:1:12-15.

A Navy Chaplain tells of the arts and crafts workshop at a Navy Hospital in a "Never-Never Land of the Pacific."

143. Office of Vocational Rehabilitation of Federal Security Agency. The Journal of the American Medical Association, Mar. 11, 1944. 124:11:715-716.

Report of the first meeting of the Professional Advisory Committee of the Office of Vocational Rehabilitation, Federal Security Agency.

144. Painton, Frederick C. With Head Held High. The American Legion Magazine, Mar., 1944. 36:3:9, 46-47.

Tells how Captain Carl Dame Clarke, with the U. S. Army in Algiers, replaces soldiers' missing hands and features with lifelike rubber prosthesis.

145. Preparation of Nurses for Orthopedic Services. Public Health Nursing, Feb., 1944. 36:2:90-93.

146. Roland, Paul. The Place of Physical Education in Rehabilitation. Occupational Therapy and Rehabilitation, Feb., 1944. 23:1;16-22.
147. Rosenthal, Theodore, M.D. Venereal Disease in Wartime. The American Journal of Nursing, Feb., 1944. 44:2:104-106.
148. Shaar, C. M., M.D. The Stader Splint. The American Journal of Nursing, Mar., 1944. 44:3:215-220.
149. Shortley, Michael J. The Administration of War and Post-War Rehabilitation of Handicapped Persons. Office of Vocational Rehabilitation, Federal Security Agency, Washington, D. C. Feb. 10, 1944. 11 pp. Mimeographed.

Presents statistics on cases rehabilitated since 1939; estimate of number to be rehabilitated in 1944-45 [80,000]; brief review of provisions of new federal rehabilitation act; information on the content of a state plan; report on progress in expanded program; list of members of National Rehabilitation Advisory Council; list of regional representatives of the federal office; and activities to be undertaken, especially by the federal office.

150. Shortley, Michael J. New Horizons in Vocational Rehabilitation. Community, Jan., 1944. 19:5:76-77.
151. Speech Therapy - A New Chapter in Wisconsin's Care for Handicapped Children. Bureau for Handicapped Children, Dept. of Public Instruction, Madison, Wisc. Jan., 1944. 29 pp.

"This is a report of a speech program carried out in the summer of 1943 for children who had recently had surgery completed for cleft palates." The University of Wisconsin Speech Department and the Wisconsin General Hospital cooperated with the Bureau for Handicapped Children in sponsoring this centralized program, which provided speech classes for 28 children from all over the state. These children were cared for in foster homes when not in class.

Besides general information on cleft lips and cleft palates, and on the importance of speech correction, the pamphlet includes information on the administration of the project--selection of children, teaching program, relations with parents and foster parents, follow-up, and records. Recommendations for a continuing, expanded program are given.

152. Strother, Charles R. Summary of Meeting, Jan. 7, 1944. Iowa Society for Crippled Children and the Disabled, 404 Plymouth Bldg., Des Moines 9, Iowa. 4 pp. Mimeographed.

Talk on speech problems of the cerebral palsied presented by the Director of the Speech Clinic of the University of Iowa to a club composed of mothers of cerebral palsied children. [See also No. 122 in this Bulletin.]

153. Swanson, W. O. "Along This Road" - President's Annual Report. Nebraska Society for Crippled Children, 826 Omaha Bldg. and Loan Assn. Bldg., 1504 Dodge Street, Omaha 2, Nebraska. Jan. 30, 1944. 4 pp.
154. Tenny, John W. Adjustment of Special Class Pupils to Regular Classes. Journal of Exceptional Children, Mar., 1944. 10:6:139-145, 160.

The principal of a school in which special classes for several types of handicapped children are housed with regular classes presents principles and procedures of cooperation between special and regular classes.

155. They Call It Camp Cheerful! The Rotarian, Apr., 1944. 64:4:42-44.

Pictures of crippled children at Camp Cheerful, near Cleveland, sponsored by the Rotary Club and the Society for Crippled Children. A brief explanation of the part played by the Cleveland Rotary Club in this history of state and national crippled children work is given.

156. This Is No Time to Waste Manpower. Association for the Crippled and Disabled, Cleveland, Ohio. 1944. 6 pp. Free copies available from Bureau of Information, National Society for Crippled Children, Elyria, Ohio.

Prepared with the cooperation of personnel managers from the Chamber of Commerce, this illustrated booklet acquaints local industries with the Association's services of rehabilitating injured workers and training new handicapped workers.

157. Veterans' Vocational Rehabilitation. Education for Victory, Mar. 20, 1944. 2:18:26-27.

158. Wagner, P. O. High School Bridges the Gap for Physically Handicapped Students. Ohio Parent Teacher, Feb., 1944. 22:6:5-6.

New Books in the Loan Library

159. After-care and rehabilitation. Edited by Sir Humphry Rolleston and Alan Moncrieff. 1943. Eyre & Spottiswoode, Ltd., London.

160. Ickis, Marguerite. Arts and crafts - a practical handbook. 1943. Barnes.
